- This benefit will be applied as long as both the origin and destination of the flight match the Favorite Route selected by the member. This applies regardless of whether the flight is direct

or has a stopover or connection. Additionally, the final destination of the flight must be the one specified in the Favorite Route.

- **Example:** *If a member selects SCL - MIA as their Favorite Route, they will earn an additional 50% of miles for both the SCL - MIA and MIA - SCL segments. Additionally, they will also earn miles if their trip includes a connection, such as SCL - LIM - MIA, where LIM represents the connecting flight.*
- This benefit does not apply when the selected Favorite Route is a stopover or connection for that section.
 - **Ejemplo:** *If a member's Favorite Route is SCL - MIA and they travel on the route SCL - MIA - ATL, with MIA as a stopover, the member will not receive the 50% mileage bonus for the SCL - MIA segment.
